Form O&G 56

Form Prescribed Under Oil and Gas Conservation Act of 1951
ABANDONMENT AND PLUGGING RECORD

(Within thirty days after the plugging of any well has been accomplished, the owner or operator thereof shall file this form with the Commission, setting forth in detail the method used in plugging the well.)

PLUGGING METHODS AND PROCEDURE -- The methods and procedure for plugging a well shall be as follows: (a) The bottom of the hole shall be filled to, or a bridge shall be placed at, the top of each producing formation open to the well bore, and in either event a cement plug not less than fifty (50) feet in length shall be placed immediately above each producing formation open to the well bore whenever possible.

(b) A cement plug not less than fifty (50) feet in length shall be placed at approximately fifty (50) feet below all fresh-water-bearing strata.

(c) A plug shall be placed at or near the surface of the ground in each hole.

(d) The interval between plugs shall be filled with heavy-mud-laden fluid.

(e) An uncased hole shall be plugged with heavy mud up to the base of the surface string, at which point a plug of not less than fifty (50) feet of cement shall be placed.

LETTER REPORTS TO MR. LLOYD DUNCAN - Wilcox, Arizona

April 21 & 26, 1955

340-5050: No fossils found.

Remarks: Many skips in samples above 2900 feet.

Summary of lithology

Samples from 340 to 2240 feet are sandstone, except 1630 to 1640 feet which is siliceous limestone.

2300-3140: Igneous rock

3140-3380: Arkosic sandstone

3380-3410: Sandstone

3410-3600: Arenaceous shale

3600-5255: Igneous rock.

The character of rocks penetrated explains the absence of fossils.

No oil stains were observed.

Samples examined from 340 to 5255 feet.

Many skips in samples above 2900 feet.

(Duncan) Not issued.

STATE OF ARIZONA

STATE LAND DEPARTMENT

BOND FOR DRILLING OIL OR GAS WELL

State of Arizona)
County of Maricopa)

KNOW ALL MEN BY THESE PRESENTS:

That we, LLOYD DUNCAN,

hereinafter called Principal, and NATIONAL SURETY CORPORATION of New York hereinafter called the Surety, are held and firmly bound unto the State of Arizona in the sum of Twenty-Five Hundred Dollars (\$2,500) for the payment of which the Principal and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

Whereas the Principal has obtained a permit from the State Land Commissioner to drill a well in search of oil or gas, and whereas said Principal is required by provisions of the Oil and Gas Conservation Act of 1951 to deposit with the said Commissioner a good and sufficient bond:

Now, therefore, the condition of the foregoing obligation is such that if the Principal shall drill, case and plug said well drilled by said Principal in such manner as to prevent the escape of oil or gas from one stratum to another and to prevent the intrusion of water into an oil or gas stratum from a separate stratum, and to prevent the pollution of fresh water supplies by oil, gas or salt water and in such manner as to prevent waste, and shall make such reports to the Commissioner as are required by the Oil and Gas Conservation Act of 1951 by said Principal, and shall file the log and drilling record kept by said Principal within six (6) months from the time of the completion or abandonment of said well drilled for oil or gas and shall plug the same in the manner provided by the rules and regulations adopted by said Commissioner, then this obligation to be null and void, otherwise to be and remain in full force and effect.

Witness our hands and seals this 27th day of AUGUST, 1954.

KNOW ALL MEN BY THESE PRESENTS,

That
we: LLOYD DUNCAN

of the Cochise County of: Arizona in the State of:

as Principal,
and FIREMAN'S FUND INSURANCE COMPANY, a corporation
of California,
authorized to do business within the State of Arizona,

as surety, are held and firmly bound unto the State of Arizona in the penal sum as indicated, lawful money of the United States, for which payment, well and truly to be made, we bind ourselves, and each of us, and each of our heirs, executors, administrators or successors, and assigns jointly and severally, firmly by these presents.

The condition of this obligation is that whereas the above bounden principal proposes to drill a well or wells for oil, gas or stratigraphic purposes in and upon the following described land situated within the State, to wit:

This is a blanket bond covering all wells drilled for oil, gas or stratigraphic purposes

(May be used as blanket bond or for single well)
in the State of Arizona, including that well presently operated by the Principal in
Section 33, Twp 13 South, Range 22, East, Cochise County, Arizona, and known as Duncan -
State #2.

NOW, THEREFORE, if the above bounden principal shall comply with all of the provisions of the laws of this State and the rules, regulations and orders of the State Land Commissioner, especially with reference to the requirements of A.R.S. 27-516, providing for the proper drilling, casing and plugging of said well or wells, and filing with the State Land Commissioner all notices and records required by said Commissioner, in the event said well or wells do not produce oil or gas in commercial quantities, or cease to produce oil or gas in commercial quantities, then this obligation is void; otherwise, the same shall be and remain in full force and effect.

Penal sum of TEN THOUSAND AND No/100(\$10,000.00) DOLLARS,

STATE OF California
COUNTY OF Los Angeles } ss.

On this 28th day of January, in the year 1959,
before me, M. S. BYBEE,

Dear Mr. Girard:

Reference is made to your notice dated February 26,
1959, advising this office of the impending cancella-
tion of Lloyd Duncan oil and gas drilling bond No.
1566580, dated August 27, 1954, in the amount of \$2,500.

Inasmuch as the coverage furnished by this bond has now been
assumed by Lloyd Duncan blanket bond No. 7027660, in the
amount of \$10,000, effective January 28, 1958, this is your
authority to cancel bond No. 1566580.

Very truly yours,

January 20, 1959

The Fund Insurance Companies
3440 Wilshire Boulevard,
Los Angeles 54, California

Gentlemen:

This is in regard to your letter of January 15, 1959, Re: Lloyd Duncan 7027660 (1566580), and certain questions concerning the drafting of a blanket bond covering Mr. Duncan's operations in the State of Arizona.

The following language is suggested to indicate type of coverage: "This is a blanket bond covering all wells drilled for oil, gas or stratigraphic purposes in the State of Arizona, including that well presently operated by the principal in Section 33, Twp. 13 South, Range 22 East, Cochise County, Arizona, and known as "Duncan-State #2".

As to the amount, the completion of the line "Penal sum of ----" by adding on the blank line provided the words and figures "Ten thousand and no/100 Dollars (\$10,000.00)" will be satisfactory to this office.

A sample copy of the bond form is inclosed for clarification. Thank you for your interest. If we may be of further assistance, please call on us.

Very truly yours,

STATE LAND COMMISSIONER

LLOYD DUNCAN
refer 7027660(1566580)

Gentlemen:

You recently wrote to Mr. Lyman M. Jensen in connection with a blanket oil drilling bond for Mr. Lloyd Duncan. We are attempting to prepare this bond but find it difficult to proceed.

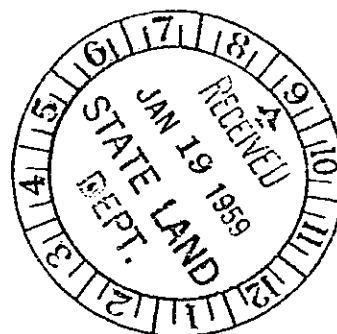

The bond states "are held and firmly bound in the penal sum as indicated" no space is provided for the amount of the bond that we find. Do you allow interlineations to show the amount after "penal sum of"? And further you state to provide specific coverage for the present well known as Dunca-State #2. Shall we mention this specifically and state in addition "blanket operations" or just how is it to be worded? We feel it is better to write you prior to writing than write the bond incorrectly so if you will let us have your immediately advices we will be in position to proceed.

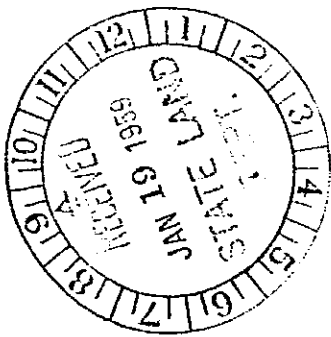

Thank you for your attention.

Very truly yours,

L. T. Backus
Underwriter

NRG:bm
cc Mr. Lyman M. Jensen

January 7, 1959

Mr. Lyman M. Jensen
132 W. Maley St.,
Willcox, Arizona

Dear Mr. Jensen:

Reference is made to your letter of January 5, 1959
re: Lloyd Duncan bond for drilling oil and gas well.

A drilling bond dated August 27, 1954, National Surety Corporation, surety, Lloyd Duncan, principal, in the amount of \$2500 is presently on file in this office to cover that operation of Mr. Duncan's known as "Duncan-State #2", located in Section 33, Township 13 South, Range 22 East, Cochise County, Arizona.

The Rules and Regulations provide that a similar bond in the amount of \$10,000 may be used to provide blanket coverage of all wells drilled by the particular principal in the State of Arizona. Rule 40 of the inclosed State-wide Rules and Regulations will fully explain this.

A blanket bond as contemplated by Mr. Duncan at this time would of course, necessarily provide specific coverage for the present well known as Duncan-State #2, before the \$2500 bond mentioned above could be released.

Sufficient copies of the bond form are inclosed for your use. If there are further questions which we may be able to help you with, please call on us.

Very truly yours,

STATE LAND COMMISSIONER

Re: Lloyd Duncan
Bond For Drilling Oil
and Gas Wells

Dear Mr. Lassen:

Mr. Lloyd Duncan of Willcox has requested me to write to you with regard to the Bond which he presently has filed with the Department as mentioned above. I believe he currently has filed with the Department National Surety Co. Bond No. 1566880 in the amount of \$2500.

Aug 27, 1954

Mr. Duncan informs me that he is under the impression that it is possible to file a bond in the amount of \$5000. which will permit him to drill one or more (unlimited) wells. If this is the case, it is his desire to have us issue such a Bond, and I will appreciate having you send me the necessary Bond Form and any special instruction in connection with this so that we may furnish this Bond for Mr. Duncan.

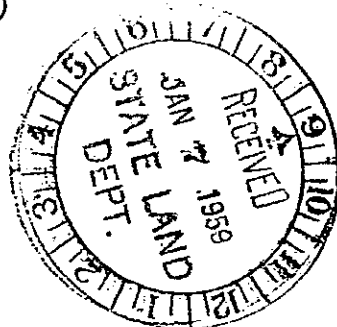

Any help that you can give me on this matter will be greatly appreciated by myself as well as Mr. Duncan. With Kindest Personal Regards, I remain,

Yours truly,

Lyman M. Jensen

Dear Mr. Ryan:

I thank you for your prompt attention to my letter
of October Twenty Fourth. on Measurements on My State Well No Two.

We are getting ready now to drill a Stratigraphic
test near here and will appreciate your sending to me the blanks
that we will need for formal application.

I have applied through our Local Insurance Company,
for needed information for application for well bond, Will comply
with your requirements and get all this information to you on
completion of Registered Surveyors plat and engineering data.

Thanking You,

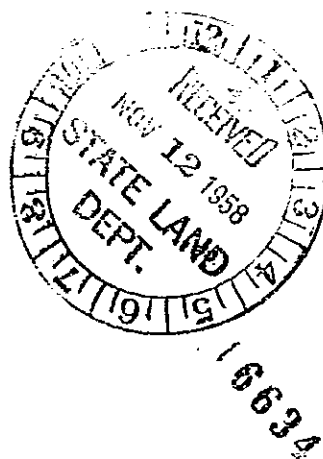

Sincerely.

Mr. Lloyd Duncan
P. O. Box 507
Willcox, Arizona

Dear Mr. Duncan:

Thank you for your letter of October 24th concerning your location. A repeated search which included the leasing files still fails to find any trace of a location plat.

Your original notice of intent for the Duncan-Price State #1 locates the original hole "660' from N line, 330' from West line, and 660' from S line of the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 33, Township 13 South, Range 22 East."

The number two well notice of intent locates that hole "75 feet Southeast" of the original well.

I hope this information will help you with your current problem.

Very truly yours,

STATE LAND COMMISSIONER

March 28, 1958

Mr. Lloyd Duncan
P. O. Box 307
Willcox, Arizona

Dear Mr. Duncan:

Reference is made to that part of your letter of March 26, 1958 regarding forms for application to drill a stratigraphic test.

This office considers a stratigraphic test as being within the category covered in those parts of the statutes having to do with the regulation of drilling, plugging, abandonment etc., of wells drilled in search of oil or gas. This viewpoint has been arrived at after careful consideration of the intent of those who framed the present statutes covering the conservation of oil and gas, the high rate of probability that un-regulated activity of this nature would do much irreparable damage to those things and people that the law was formulated to protect, and the attitude of other states as reflected by their regulative acts and court opinions.

Consistent with the above, this office requires that a person desiring to drill a strat test shall file Notice of Intention to Drill and post bond as though he were proceeding with the drilling of a production well. Transmitted herewith are the necessary forms for making application for permit to drill.

If we may be of further help, do not hesitate to call on us.

Very truly yours,

STATE LAND COMMISSIONER

Re: National Surety Bond # 1566580
Lloyd Duncan - Willcox, Arizona

Dear Mr. Bolton:

Approximately two months ago, you received a communication from the Arizona State Land Department, in connection with the above captioned Bond covering Oil Well Drilling operations. At the time of the inception of this Bond, August, 27, 1954, the Southwestern General Agency of Phoenix, represented the National Surety Corporation, here in Arizona. As a local Agent we have been placing the greater part of our Bond business with the National Surety Corporation, for a number of years.

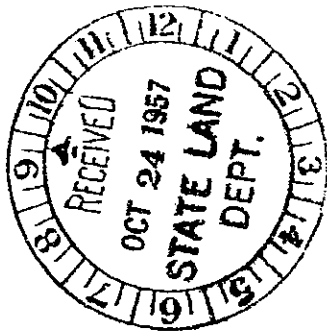

Through an error, not entirely clear to us, we did not receive notice of the termination or the possibility of such action, until Mr. Lloyd Duncan brought to us his copy of the letter to you from the Arizona State Land Department, dated August 26, 1957.

Since it is mandatory that Mr. Duncan keep this Bond in force as long as he is engaged in Drilling Operations, we are enclosing herewith our check for \$25.00, to cover premium for this Bond for the current year, with the request that you please continue or reinstate this Bond in full status. We wish to state further, that we understand that this Agency will not participate in any commission for this service, this is being done solely as a courtesy to Mr. Duncan. We also request that you send this Bond or Notice of Continuance of same to the Arizona State Land Department, Attn: Mr. Louis C. Duncan, State Office Bldg., Phoenix, Arizona. It will also be appreciated if you will please furnish this office with confirmation of Bond execution or continuance. I wish to express my appreciation for any assistance that you can give in this matter, I am

Dear Louis:

Have just received your letter about the well Bond which had not been renewed.

I secured the original Bond through Frank Harris Insurance Agency. Willcox, Office. On receiving your letter several months back on this matter I called Mrs. Mary Nordhus of the Harris Agency and asked her to process it for me and I had not thought of it since that time.

Have just returned from taking your letter to Mrs. Nordhus so that she can have it renewed or continued as the Company decides.

Am sorry it became necessary for you to write me about this.

Most Sincerely.

Dear Louis:

After answering your letter this morning on the well Bond, I remembered that I had paid for that service at the time I wrote you about it on March 19Th. I sent my Check number 1225, to Frank Harris Insurance Agency For Southwestern General Agency (as that is where we obtained original Bond.

I do not know how The Other Insurance Agency became interested in the picture.

Mrs. Mary Nordhus of The Harris Agency is writing today to The Southwestern General Agency requesting that they notify you that I had taken care of the matter as reported to You.

Hoping this may be cleared up soon.

Sincerely.

Lloyd
Lloyd.

10/21/57.

I talked to Mrs Mary Nordhus and she confirmed having received the check from Mr Duncan. She was confused as to how to handle the bond for her agency is not authorized to do business with Siemens - she was try to write a new bond with another company. I persuaded her to try and restate the old bond and she said she would try. P.W.G. f.

Dear Mr. Bolton:

Re: Bond No. 1566580 - Lloyd Duncan

We wish to acknowledge receipt of your letter with regard to the above captioned bond.

We wish to advise you that on March 19, 1957 we received a letter from Mr. Duncan, in which he stated he was taking care of the matter of the bond. We were informed that Mr. Duncan does not wish to release the present location, and therefore, the bond must remain in effect.

Your letter indicates that Mr. Duncan did not take care of the bond as was promised, and that the bond has been up for cancellation for some time.

In view of the above status, and since Mr. Duncan has not filed abandonment papers, driller's logs and samples as required by law, this Department is of the opinion that steps must be taken to comply with our regulations.

The driller, Mr. Lloyd Duncan, will be responsible to retain a bond on this drilling operation so long as he continues to drill or in any way operate this well.

Very truly yours,

Dear Louis:

Received your letter on matter of well bond this morning, Have called the Insurance Company office and have my check for Twenty Five dollars in envelope addressed to them and will mail on going downstairs with this letter.

I talked by Phone to Mr. Vess J. Taylor of Henderson, Texas Friday the 15th. and To The Geologist Mr. W.A. Reiter of Houston, Texas last night about continuing with additional treatment on what we call well Number Two. We do not feel that the well should be abandoned as yet. And as for well Number One I do not hesitate to assume responsibility for either of them as we cannot tell yet which one we may want to use temporarily as a water well. In case we continue with treatments on well Number two, we will need number One as a water well as we will have to haul our water from Willcox, and that is Nineteen Miles.

Will send you the necessary completion records, Samples and logs before leaving any well.

In talking to the Gentlemen named above they have agreed to help me with another nearby well in case we cannot get anything worthwhile from our present location, Will apply for permit on making that decision.

Have an Oklahoma Group who have been here twice and we feel they will be here again soon hoping to make a deal for at least one well on another structure.

Have had another Group here from Monahans, and Big Spring, Texas who seem to be very much interested in helping with a well.

Am Hoping this information will serve your needs at present.

Most Sincerely.

MAR 20 1977
STATE LAND
DEPT.

March 14, 1957

Mr. Lloyd Duncan
Valley National Bank Building
Willcox, Arizona

Dear Mr. Duncan:

Thank you for your prompt attention in the matter of the bond which was filed to cover your drilling operation of well number two, in Section 33, Township 13 South, Range 22 East. Your letter indicates that a casing program has been in progress, and that the zone has been swabbed for the past seven weeks with very little showing of oil.

We wish to stress the fact that whether or not you intend to convert the number two well into a water well, or drill an additional well in a new location, your drilling operation must be covered by a bond. Under no circumstances may we release the bond we are holding at present, until all requirements have been met. In other words, we will have to have our forms 55 and 56 filled out and approval granted before we can release the present bond, or issue a new permit.

If you are contemplating a water well out of the number two well, then we must be in receipt of a letter of responsibility in which you must assume all liability for the well.

We still have not received completed forms 55 and 56 on your well number one. Please complete the inclosed forms on this well.

We shall be very glad to receive all pertinent information with regard to logs and samples on these wells, and would appreciate knowing what is to be anticipated with reference to your future drilling operations.

Very truly yours,

STATE LAND DEPARTMENT

Attention Mr. Louis C. Duncan:

Dear Louis:

In reply to your letter on the matter of Bond for (well) Duncan State Number Two. All drilling on this well has been stopped during year 1955, During 1956, I acidized twice below 4875 Ft. pulled the casing and had more electric logs made, replaced all casing (5300 Ft.) and filled with sand and gravel up to 2300 Ft. then put 10 sacks of cement above the sand and gravel which filled up to 2230 Ft. blocking all chance for bad water to penetrate upper zones. We then perforated between 2164 Ft. and 2179 Ft. Shooting four $\frac{1}{2}$ Inch holes per foot, 60 Holes in all and fracked that zone with 125 Barrels of fracking oil using 5000 Pounds of fracking sand. We followed that treatment with a Baker drillable plug set at 1700 Ft. and perforated with 40 One half inch holes between 1600 Ft. and 1610 Ft. Have been swabbing that zone for seven weeks now with very little showing of oil. Since all the drillers have returned to their homes in Texas, I go out from three to six days a week and do this work myself. We may need to drill a fresh hole nearby if this one does not show something soon. In that case I will apply for another permit and bond.

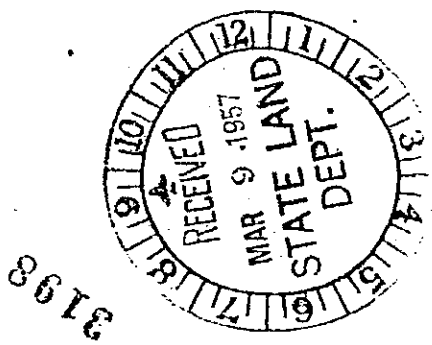

I do not feel that another bond is required on the present location but in case you want me to get one I will do so.

We do not want to release this present location as we will need to make a water well of this one in order to drill another test well as there is no water in the reservoir at this time.

We have all the cuttings and electric logs for your office on finishing this well and will gladly send you a complete abandonment report.

Sincerely.

Lloyd Duncan

March 1, 1957

Lloyd Duncan & Associates
Petroleum Exploration
Valley National Bank Building
Wilcox, Arizona

Gentlemen:

We are in receipt of a Notice of Cancellation of your bond in the amount of \$2,500.00 which is held by the National Surety Corporation of New York. Cancellation of this bond is effective March 21, 1957, at which time all drilling operations must cease.

We wish to advise you that we have been concerned for some time about the status of the well drilled in Section 33, Township 13 South, Range 22 East, known as the Duncan State #2. If you do not contemplate any future drilling activity on this well, then we must have the inclosed O&G forms 55 and 56 completed and returned to this office for approval. Our file further shows that we do not have any samples or drilling logs, electric or otherwise.

The State Law requires that samples, well logs, and drilling records must be filed with this Department within six months after completion or abandonment of any well drilled for oil or gas, before we can release the bond.

We are also requesting that you complete forms O&G 55 and 56 for the first well, which we understand was drilled to a depth of 1500' in the same location. We are in receipt of the cuttings on this well; however, we are in need of a driller's log showing what was encountered to the 1500' depth.

If and when all requirements by this Department have been met and complied with, we shall be in a position to close our files and terminate the bond.

Very truly yours,

STATE LAND DEPARTMENT

June 8, 1955

Mr. Lloyd Duncan
P. O. Box 672
Willcox, Arizona

Dear Mr. Duncan:

We have been considering the drilling operation that you now have in progress in Section 33, 13-S, 22-E. We understand that you originally started to drill a well 600' from the north line and 330' from the west line and 660' from the south line of the NE $\frac{1}{4}$ SE $\frac{1}{4}$.

It has come to our attention that you have not filed a drilling permit on the new well location that you have started. In this situation it is required that you furnish us an amended location for that new development.

It is also required that you furnish us a report of the abandonment procedures on forms enclosed, of the original location.

We are also enclosing three blank forms of Notice of Intention to Drill New Well which you may use for furnishing this office an amended location notice.

Your prompt cooperation in this matter will be appreciated.

Yours very truly,

Louis C. Duncan

ARIZONA REPUBLIC
**New Cochise
Oil Gas Test
At 900 Feet**

February 13, 1955
Another Cochise County oil-gas test is under way.

It is the Duncan State No. 1 well, for Lloyd Duncan and Associates, about 18 miles west of Wilcox in the valley between Winchester and Little Dragoon Mountains.

As of yesterday the well was below 900 feet.

Associated with Duncan in the exploration are Denver Oil Corp. and Braniff Dayton Oil Co.

Announced plans are to drill to 10,000 or 12,000 feet.

The standard rig in use is owned by Well-Duncan Co., and was moved to the site from a previous uncompleted test.

Ray Buffington, of La Mance Drilling Corp., Midland, Tex., is drilling superintendent. He was loaned for the test by the Texas concern.

Geologists are Chuck Aston of Beverly Hills, Calif., who has been associated with Duncan for the past seven years, Christian Brang of Evansville, Ind., and R. H. Andrews of Dallas, Tex.

Three four-man crews operate the test on a clock-around basis.

September 23, 1954

The Arizona Republic, Phoenix, Arizona

Thursday

4th Cochise Oil Well Test Ready

Special to The Republic

WILCOX — The fourth current wildcat oil test in Cochise County was made ready yesterday.

It is the Duncan-Price State No. 1, spudded in and ready to go about 20 miles west of here.

The rig is a 132-foot standard rotary capable of going to 7,000 feet.

Drilling is planned on two 8-hour shifts daily.

Drill permit was issued by the state land department to Lloyd Duncan of Wilcox. Duncan and associates have more than 45,000 acres of land under lease in the vicinity of this newest Cochise County test.

Other explorations for oil or gas are in San Simon Valley, southeast of here, where Mayer-Kaufman have temporarily halted drilling operations after going deeper than 7,200 feet to make

the test the deepest in the state and are planning to drill to 12,000 feet; the long-halted test of Portal Drilling Co., only a few miles from the Mayer-Kaufman wildcat; and the uncompleted test near McNeal.

Portal company has reported

three showings of oil and has announced plans for a series of tests beginning at the deepest showing.

The McNeal operation ceased after a costly drill-stem break at around 5,000 feet. Tools were removed and the test-hole cleared but nothing further was done on the test.

SPUDED IN — Duncan-Price has spudded in its State No. 1 wildcat oil well about 20 miles west of Wilcox. Rig which drilled near McNeal recently is pictured ready for drilling. — (C. E. Madinger Photo)
